

**Order number:** 2220000013

**Open text field 1:**

- Reliably reports water on contact
- Protects against water damage
- Alarm on device and through control unit
- Easy installation
- Additional sensor on base of housing
- For indoor installation

**Hersteller:** Kathrein

## FWM 100

### Product information "FWM 100"

Wireless water detector

Type:	FWM 100
Radio frequency:	2,4 GHz
Radio power:	Max. 100 mW
Transmission range (depending on local conditions):	Approx. 30 to 100 m
Communication method:	ZigBee HA 1.2 Pro
Attachment options:	Screw together
Installation site:	Wall, floor
Power supply:	3 V, CR123 lithium battery
Sensor type:	Resistance bridge
Detection method:	Resistance measurement (sensitivity < 350 kΩ)
Complies with directives:	CE, FCC, RoHs
Operating temperature:	-10 to +45 °C
Dimensions (L x W x H):	95 x 30 x 82 mm
Weight (including batteries):	0,12 kg
