> DAB+ 100 highline

The DAB+ 100 highline is a professional stereo all-in-one system with FM/DAB+/Internet radio, Wi-Fi and wired Ethernet capabilities, and an integrated CD player in a timeless design. It enables the use of Deezer, Tidal, Napster, Qobuz, Spotify Connect and Internet radio as well as wireless audio streaming via Bluetooth. The integrated CD player, which nowadays is becoming a bit of a rarity in many living rooms, is the absolute highlight of the DAB+ 100 highline. Standard functions such as a sleep timer with wake-up function are of course also integrated. The highline radio additionally features a recording function (SD card/USB stick), which clearly sets it apart from its smaller siblings.

Features

- Internet radio/DAB+/FM RDS
- Deezer, Tidal, Napster, Qobuz and Spotify Connect
- CD player (MP3 and WMA)
- Recording function (SD card/USB stick)
- Bluetooth for audio streaming
- UNDOK™ app for playback control
- UPnP/DMR music streaming
- 30 station memories (10 × FM/10 × DAB+/10 × Internet radio)
- Instead of the telescopic antenna, another antenna (without remote power supply) can be connected to the F-socket
- 3.2" backlit colour display
- Output power: 2 × 7 W
- Connections/ports: AUX-In, headset, USB port, SD card slot, Ethernet (RJ-45), Line-Out, optical output, F-socket (for connecting the telescopic antenna)

> DAB+ 10 tower

The DAB+ 10 tower is a modern, portable FM/DAB+/Internet radio with Wi-Fi capability. It enables the use of Deezer, Tidal, Napster, Qobuz, Spotify Connect and Internet radio as well as wireless audio streaming via Bluetooth. Of course the tower also offers other features such as an alarm clock, sleep timer, pairing via NFC and control via the UNDOK™ app. Thanks to the integrated battery compartment/charger (switchable), the radio can also be operated with disposable or rechargeable batteries, which means that there is nothing to prevent you from using the tower far away from a power outlet.

Features

- Internet radio/DAB+/FM RDS
- Deezer, Tidal, Napster, Qobuz and Spotify Connect
- Bluetooth for audio streaming
- UNDOK™ app for playback control
- UPnP/DMR music streaming
- 2.4" backlit colour display
- Output power: 1 × 10 W (RMS)
- 12 V/DC 1.5 A power supply unit with switchable battery compartment/charger for operation with disposable/rechargeable batteries (not included)

> DAB+ 1 mini

The DAB+ 1 mini is a small, portable FM/DAB+ radio with a powerful sound. Equipped with Bluetooth for wireless audio streaming, it leaves nothing to be desired when streaming from mobile phone to radio. An integrated rechargeable battery pack, an OLED display as well as an antenna socket for an external wire antenna perfectly round off the smallest member of our DAB+ family. The DAB+ 1 mini is available in four colours – classic white or silver, and light or dark real wood veneer.

Features

- DAB+ and FM
- Bluetooth for audio streaming
- OLED display for DAB services and information
- Integrated rechargeable battery pack
- Including antenna cable (wire antenna, 3.5 mm jack cable) and USB connection cable (USB Micro) for charging (5 V/1 A)

Available in the following colours:

Dark wood

Light wood

White

Silver
