**YOUR ADVANTAGES**

- Innovative: HDTV for large and small distribution systems in DVB-C, DVB-T and DVB-IPTV
- Economical: programme processing with 4, 6 or 8 transponder modules
- Digital: original high-definition processing in HD
- Compatible: also for older TV networks without extra investment
- Future-proof: HDTV with MPEG-4 TV/receivers
- Including: Radio programmes in digital quality
- Flexible extension, remote controlling and monitoring
- Energy saving: lowest current requirement and highest efficiency

**UFOmini**

> Headend Technology from Kathrein – Modular or Compact Solutions

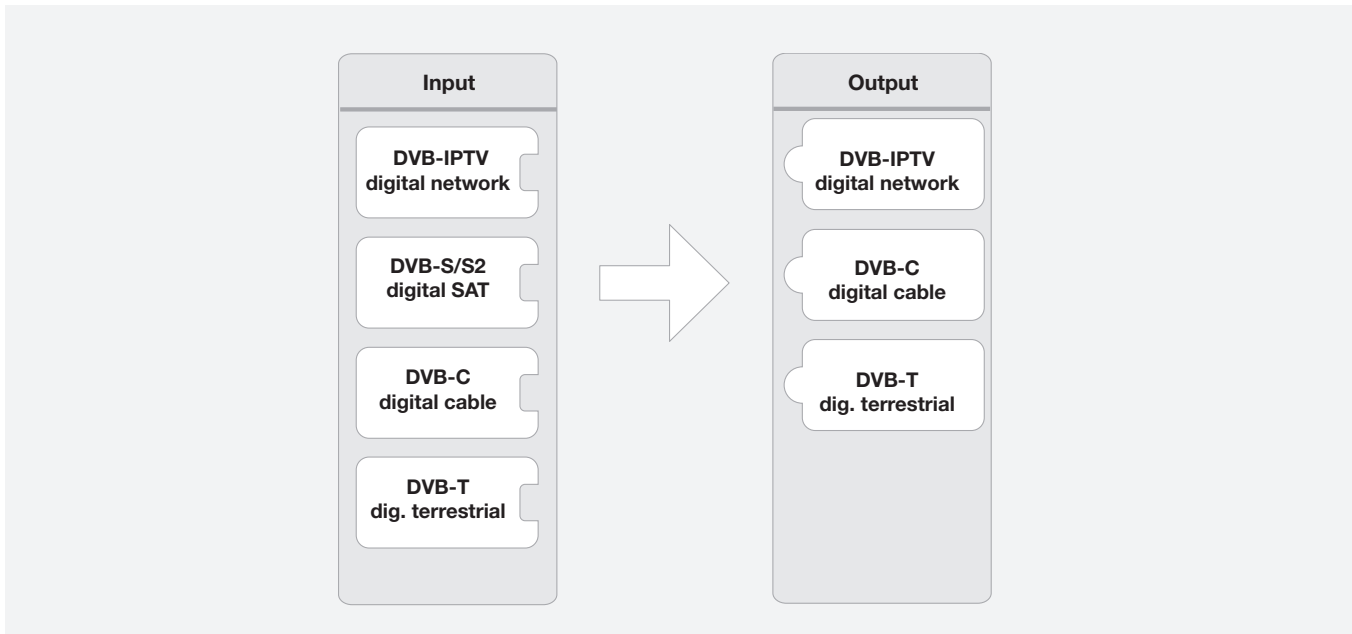

- UFOcompact plus® (modular)
- UFOmini (compact)
- UFOnano FTA (compact)

**UFOnano**

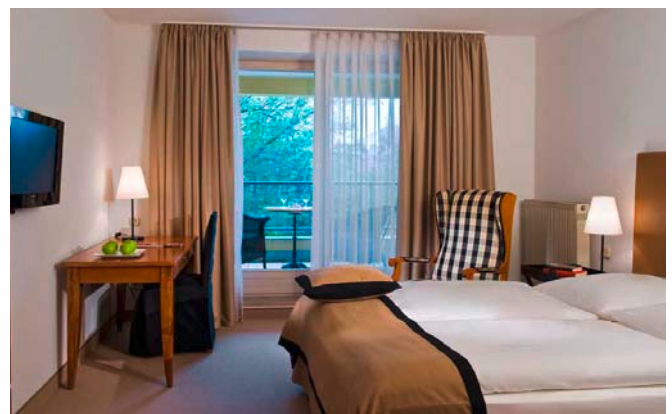

## > Multi-Functional TV Signal Processing

## > Features and Possibilities

The modern headends process and feed all types of receivable DVB signals into the distribution system. The TV-integrated DVB-T, DVB-C or IPTV tuners play out the video or radio programmes in high definition quality.

Easy to use software allows the systems to provide programmes matched to your guest groups. Please contact your Kathrein customer service centre for a solution matched to your hotel system. Contact information is listed overleaf.
